NEWS RELEASE

"GEI Participated in "The Forefront of Bio Manufacturing" Seminar in Bio Japan 2023
Focusing On Initiatives for Commercialization of Biomanufacturing in Kanto Region "

On October 12th, 2023, Mr. Tomohito Ihara, the CEO of Green Earth Institute Co., Ltd. ("GEI") participated as a speaker in one of the Organizer Seminar "The Forefront of Bio Manufacturing", in Bio Japan 2023, Asia's largest partnering event in Yokohama city, Japan.

Dr. Akihiko Kondo, a professor at Kobe University, also joined this session as a facilitator, as well as the speaker as a board member of Bacchus Bio Innovation Co., Ltd., and Mr. Jason Kelly, CEO/Co-Founder of Ginkgo Bioworks Holdings, Inc. online. Mainly the speakers introduced and discussed the status quo of biomanufacturing, its prospects and the current oversea situations such as in the US.

Mr. Ihara explained about the ongoing initiatives for the commercialization of biomanufacturing and the Bio foundry project in Mobarra city in Chiba prefecture funded by the New Energy and Industrial Technology Development Organization ("NEDO") as an actual example that biomanufacturing in Japan has been developing among Japanese private companies with comprehensive supports by the Japanese government financially.

Through these activities, GEI strives to become a platformer which leads to develop the biomanufacturing in Japan.

Please note that the presentation materials used for this session will not be disclosed due to the relationship with related organizations.
